Sermon Scripture: 1st Peter 3:18 – 19 (GNT)

Message Title: Handling Hell!

Current Context:

- Clearly, we have **c**_____ in every village, hamlet, and **s**_____ that make people feel like they have **h**_____ on their trail.
- Some of us have fallen victim to the **e**_____ evangelical theological assumption that adverse **s**_____ conditions and circumstances in people's lives somehow represent the consequence of their **b**_____ relationship with GOD.
- In addition to the **c**_____ hell, there are **p**_____ hellish situations and conditions as well.
- And because the church has been **d**_____ and **d**_____, because we've started preaching solely, about an otherworldly **f**_____ and not ground level **f**_____, we have allowed hell to get **c**_____ in the community and in the **c**_____.
- Jesus declared that the gates of hell shall not **p**_____, but we have opened the gates and made hell feel right at **h**_____!
- In the text, the **a**_____ author declares that Jesus was put to **d**_____ in His human body, but was made alive, while His body lay in the tomb, in the **S**_____ and he set some folks free from a hellish **s**_____!
- And so our answer is that we learn to handle hell by **l**_____ to Jesus!

Relevant Question(s):

- How do we model Jesus and handle hell?

Sermon Observations:

1. You must be **w**_____ to go to **h**_____!
2. You must be **c**_____ to **R**_____ **h**_____!

Then...

3. You will be able to **g**___ **t**___ **h**___ **o**___!

Calvary Connection:

- “Jump!”
- Jesus sees you when hell **s**_____ up; He saw that we **n**_____ a Savior; He saw that hell was **r**_____; He saw we needed a **f**_____; He saw that we needed a **s**_____; He saw them **n**_____ His hands; and He saw them **p**_____ His side! He died on Friday! He died and hell thought it'd **w**____! But early on Sunday morning He got up with all **p**_____ to **h**_____ **h**____!

Personal Reflection:

- Reflect on your role in helping to create chaos around your life versus helping to create calm around your life? What keeps you pushing forward through chaos and what helps you stay calm in crises?
